ENVIRONMENTAL POLICY

Exact group companies are committed to provide comprehensive and professional service in analytical instrumentation with the least impact on environment. We also strive to adhere with environmental law, and sustainable development of environmental protection by focusing on enhancement of our product technology.

The following practices shall be attained in partnership with our employees, suppliers, contractors, customers and other interested parties:

1. Scrutinize the environmental impact of every action the company takes, including activities, products, services, as well as wastes from the company by implementing the 3R concepts (Reduce, Reuse & Recycle).
2. Strategic management planning promotes the efficient use of resources, reduces waste generation, and fostering a more sustainable environment.
3. Achieve zero net carbon emission across our operation and value chain.
4. Commit to continuous improvement and adaptive strategies to effectively address evolving challenges in environmental protection.

We require the cooperation and commitment of all employees, contractors, visitors, and customers to collaboratively foster and uphold a safer and healthier environment.
